

RanchPad

Livestock Management, Simplified.

YOUR HERD. YOUR HEALTH. YOUR RANCH.

Made with **GAMMA**

The Problem

Ranchers lose money every year from missed treatments, disease outbreaks they didn't see coming, and scattered paper records. Managing a herd shouldn't require a filing cabinet.

Missed Treatments

Vaccinations and medication schedules fall through the cracks with no centralized tracking.

No Early Warning

Disease risk rises with changing weather — but ranchers rarely get a heads-up before it's too late.

Scattered Records

Animal histories are lost in notebooks, folders, and memory — making audits and decisions harder.

The Solution

RanchPad is a livestock management web app built for working ranchers — simple to use, powerful enough for any herd size.

Simple Herd Log

Track every animal, treatment, and health event in one place. No paper, no guesswork.

AI-Powered Alerts

Get early warnings when local weather and conditions raise disease risk — before the outbreak starts.

Smart Reminders

Never miss a shot, treatment, or upcoming birth. RanchPad keeps you on schedule automatically.

Key Features

Dashboard

At-a-glance herd stats, active alerts, weather, and upcoming tasks — all in one view.

Herd Directory

Add animals individually or bulk upload via CSV. Filter by breed, sex, or tag number.

Action Center

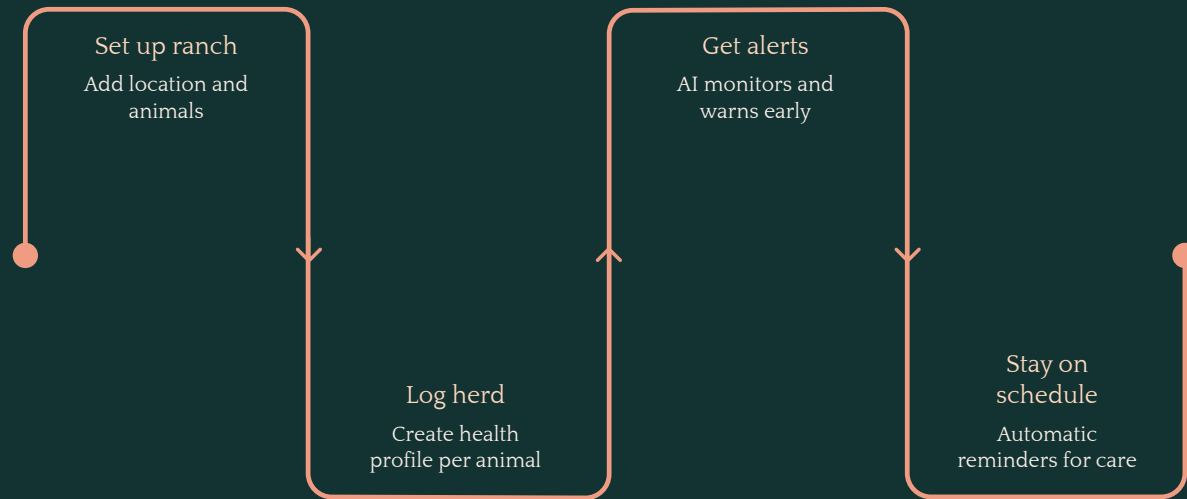

AI-powered insights surface urgent tasks so nothing slips through the cracks.

Ranch Weather

Localized forecast pulled from your ranch coordinates — because weather changes disease risk.

How It Works

Most ranchers are up and running in under 15 minutes — no training required.

Simple, Honest Pricing

Free Trial

12 days of full access. No credit card required. No commitment. Try every feature with your real herd data.

RISK-FREE

Subscription

\$12/month after your trial ends. No tiers. No per-animal fees. No surprises. One simple price for any herd size.

FLAT RATE

No tiered confusion. No per-animal pricing. Just \$12/month for the whole platform.

Who It's For

Cattle Operations

Small to mid-size cattle ranches that need professional herd tracking without enterprise-level complexity or cost.

Hobby Ranchers & Homesteaders

Managing sheep, goats, or pigs? RanchPad works for any livestock — not just cattle.

Anyone Tired of Paper

If you've ever missed a vaccination or lost an animal's health history, RanchPad was built for you.

Why Now

Livestock disease outbreaks are rising. Input costs are up. Margins are thin. **Reactive management is no longer an option.**

The Only All-in-One Tool

RanchPad is the only livestock management app combining herd records, AI disease alerts, and weather monitoring in a single platform.

A Price Any Rancher Can Afford

At \$12/month, RanchPad costs less than a single missed vaccination — and pays for itself the first time it catches a problem early.
